D1 103. (Amended) The display of claim 106, said separator comprising an inherent mask between respective picture elements.

Please add the following new claims:

127. (New) The liquid crystal display of claim 106 and further comprising a projection system in which an image is formed from non-specular light, including a collimated light input to the liquid crystal display, projection optics for receiving non-specularly scattered light from the liquid crystal picture elements of the liquid crystal display for projection, and a stop blocking specularly transmitted light from the liquid crystal display from projection by the projection optics.

D 128. (New) The liquid crystal display of claim 127, wherein said liquid crystal picture elements comprise liquid crystal material having a birefringence that is about 0.12 or less.

D 129. (New) The display of claim 127, wherein the liquid crystal picture elements comprise low birefringence liquid crystal material in volumes of a containment medium, and wherein the size of the volumes is about 5 microns or less.

130. (New) The liquid crystal display of claim 114 and further comprising a projection system in which an image is formed from non-specular light, including a collimated light input to the liquid crystal display, projection optics for receiving non-specularly scattered light from the liquid crystal picture elements of the liquid crystal display for projection, and a

stop blocking specularly transmitted light from the liquid crystal display from projection by the projection optics.

131. (New) The liquid crystal display of claim 130, wherein said liquid crystal picture elements comprise liquid crystal material having a birefringence that is about 0.12 or less.

132. (New) The display of claim 130, wherein the liquid crystal picture elements comprise low birefringence liquid crystal material in volumes of a containment medium, and wherein the size of the volumes is about 5 microns or less.

Marked-up versions of the above amended claim is included in Appendix A attached hereto.

REMARKS

Favorable reconsideration of this application respectfully is requested.

This application now includes claims 103-132.

In response to the second restriction requirement made in the Office Action of May 16, 2002, claims 106, 114-122, and 126-132 are elected.

An election was made in response to a first restriction requirement, and claims 103-105 and 107-113 were withdrawn.

The second restriction requirement of May 16, 2002 is traversed. Moreover, reconsideration of the first restriction requirement, insofar as it pertains to claims 103-105, respectfully is requested.
